

# Winnie's Wood

We proudly present the 'Winnie's Wood' collection. Hand made by our talented facilities volunteers, these products are crafted from the original, iconic trellis on the South side of Chartwell – recently removed from the house as part of ongoing conservation work. This trellis has adorned the house for years and was a key feature back when the Churchill family lived at Chartwell.

A piece of history, made into something beautiful and useful, could now be yours forever. In return for a donation to our 'Churchill's Chartwell' appeal, you could be the proud owner of a mirror, a doorstep, or even a re-worked trellis made from Winnie's Wood.

Each item is unique, and bears the marks you would expect from a weathered trellis. These features only add to the charm of the piece and make for a truly one-off product
